PRIVATE EQUITY SUMMIT PARIS 2021

When Private Equity transforms business and fosters innovation

THE CONFERENCE

Private equity is here to stay: Buyouts transform and consolidate whole industries while venture capital fosters research and innovation.

The Private Equity Summit Paris 2021 will provide a forum for C-level discussions of the “big points” on the global agenda like, e.g. ESG integration.

The leaders and the organiser of the event limit attendance to senior investment decision makers. This allows for effective and decision-oriented discussions during our networking breaks.

THE DORIOT AWARD

The new global “Doriot Award for the Best Private Equity Research Paper” will be established within this 2021 conference. The Award Jury is comprised of a global elite of private equity researchers from, e.g. Harvard Business School, HHL, INSEAD, MIT and Stockholm School of Economics.
